

Feedback to the community following the meetings of May 2016

A summary of those things which you said mattered in the future development of Walton

So, you said we should strive for a village,

- ***Where all future development ensures a thriving community and a village which is sustainable....***
And you talked about housing development; use of the village hall; making sure that the village is 'right' for a good mix of the young, the elderly and all those in between.
- ***Where the historical prominence and distinctive character of the village is fully recognised, respected and enhanced.....***
And here you talked about the position and view of the church; style of future housing and areas to be preserved.
- ***Where there is good access to health services, community facilities and employment locations.....***
And here you talked about public transport, traffic access and the cricket ground, play areas and the pub.
- ***Where there is a welcoming community which promotes the interest of all ages, abilities and diversity groups and which ensures a healthy and safe community.....***
And here you talked about the cycling track, areas for children to play, walking areas and traffic calming
