9	Yes, concerned regarding speed of traffic down Springs Lane.	10/4/2017 3:01 PM
10	There is a wider issue here relating to the increasing volume of traffic including commercial vehicles that are using Main Street Walton as a shortcut from the B1224 to Thorp Arch trading estate. Some vehicles travel through the village at excessive speeds. It has been noted that articulated lorries pass through the village during the early hours of the morning (4am). The village is a designated conservation area.	9/11/2017 11:04 AM

7	This is splitting the village too much, better nearer village	10/16/2017 9:45 AM
8	I think the plan is excellent overall and I fully support the other 2 housing sites. I am deeply concerned, however, that this site leaves the potential for significant further development in the future as it would completely alter the natural boundary of the village. Planners and developers could argue in future that in-filling the spaces that were left would be a natural step and we would be left with little planning defense. While I can see why the NP group have considered this attractive as a stand-alone development, the potential implications for the village in the future are huge. For that reason, I hope it will be re-considered.	9/30/2017 1:17 PM
